NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Make Breakfast a Priority or Make Ahead Breakfasts. Breakfast is the most important meal of the day. The name itself means you are breaking an overnight fast and need to replenish your body's energy stores. The first meal of the day should provide about one quarter of your total daily nutrition requirements so you can be at peak performance at school and work. Without a good breakfast, you may become sleepy in the late morning, lose energy, and even lose the ability to perform mental tasks. People who eat breakfast are also more likely to eat well at lunch and consume a more balanced diet overall. But the time crunch on busy mornings is undeniable. The solution? Make your breakfast the night before, when you are already putting around the kitchen. Then store it in the refrigerator and cook it in the morning while you're getting ready to go. Or let your breakfast cook all night in the crockpot. Then sit down to an excellent, leisurely meal and you will be set for the day.

BREAKFAST TIPS

- Be Creative
- Use the Crockpot
- Get Kids Involved
- More Fruits and Veggies
- Bread Machine
- Try Ethnic Foods
- Plan Ahead

TURTLE NESTING SEASON IS HERE! The months of May thru October are the prime months for sea turtles to nest along our beaches. KSC and CCAFS have some of the only remaining pristine beaches along the East Coast of Florida. Sea turtles use these beaches in high numbers for nesting. All exterior lighting at KSC and CCAFS, not just that which directly hits the beaches, can be a distraction to these turtles causing disorientation and nest abandonment. Please, take extra measures to ensure all non-essential exterior lighting is turned off. The KSC Exterior Lighting Guidelines can be reviewed on the Environmental Program Branch website at **<http://environmental.ksc.nasa.gov/natural/lighting.htm>**. If you see any lights that you feel need to be turned off or have any questions, please contact John Shafer, NASA EPB, at 867-8448. (TA-C3)

INSPECTOR GENERAL: The Office of Criminal Investigations (OCI) is the investigative arm of the NASA Inspector General (IG). The OCI is an independent entity and reports directly to Robert Cobb, the NASA IG, in Washington D.C. The primary mission of this component is to conduct criminal and civil investigations of reported or suspected fraudulent acts by employees, contractors, and others relating to the administration of NASA contracts and programs. Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. Suspected violations can be reported by calling 867-4714 locally, the toll free Hotline at 1-800-424-9183, or by writing NASA Inspector General, P. O. Box 23089, L'Enfant Plaza Station, Washington, D.C. 20024. The OIG Cyber-Hotline can be accessed at **www.hq.nasa.gov/office/oig/hq**. (OIG)

USE OF FEDERAL PROPERTY: There are statutory and regulatory prohibitions against the use of Federal property, facilities, and equipment for personal purposes. These prohibitions apply to such items as Government vehicles, office supplies, FTS (Federal Telecommunications Systems), Datafax, computers and network capabilities, reproduction equipment, tools, and a variety of utility and other items. This also applies to equipment provided by the Government for contractor use and to items issued to the Government. Employees have a positive duty to protect and conserve such items and other property entrusted to them. (BA-B)

GRAPHICS/PUBLICATIONS: Before you begin any work for publication, consult the JBOSC Graphics Department. According to the print shop, approximately three jobs per week have to be reworked because of problems with alignments, reductions, and postscript formats. By consulting with JBOSC Graphics first, you will eliminate wasted time and effort to rework your project. Graphics will ensure your artwork is produced efficiently and is suitable for reproduction. Graphics has electronic transfer capability, a proven method for first quality prints directly from the original, compared to low density reproductions from copied artwork. For information, call 867-3838. For your convenience, JBOSC Graphics has two additional offices located in the O&C Building, Room 1152, 867-7419; and, in the OSB Building, Room 6204, 861-3814.
